Dear Outsider:

Here's your cloak! Here's your dagger! Here's your opportunity to be one of the first people in America to see the amazing Premier Issue of INSIDER, a daring new magazine that uses intelligence techniques to give you access to privileged information, expose hidden connections and motives, and get you the whole story of what's happening -- before it happens!

If you accept this invitation today, you'll receive Volume I, Number 1, and 11 subsequent issues -- and you'll be getting a magazine the likes of which you've never seen before! A magazine based on the reports of professional intelligence agents in the United States and countries overseas. A magazine that takes this information and subjects it to the same professional scrutiny the CIA, MI6, the KGB or Mosad would have given it, had it come across their desks. A magazine checked

-2-

and re-checked by professional pessimists so you won't be misinformed and misdirected as you so often are by the mass media. A magazine that brings you news you're not getting anywhere else -- and gets it to you first!

Top-level intelligence
to keep you ahead of the headlines

In every issue of INSIDER, you'll get inside information on subjects that matter to you most, not just those traditionally associated with intelligence work. For instance...

INSIDE INFORMATION about inflation so you can plan your hedges against it! INSIDE INFORMATION about the energy crunch so you can protect your family from it! INSIDE INFORMATION about the economy and the dollar so you can make your moves before the market! INSIDE INFORMATION about politics, foreign policy, health care, education, crime and other issues so you can decide where you stand -- and make your voice and vote heard in time to matter!

Get first-hand reports on what's what with America, our allies and our enemies! Join investigators from INSIDER and spy beneath the surface. Find missing links, put seemingly unrelated pieces together and solve the puzzles of our time! See our society in clearer perspective -- what's right about it, what's wrong about it and what can be done about it!

Come! With agents from INSIDER to guide you, infiltrate the IRS, 1980 campaign headquarters, Reverend Moon's headquarters, the Post Office, the Chrysler Corporation, the Federal Reserve, the Chicago Stockyards, Consolidated Edison, Exxon, ABC, Amtrak, Sing Sing, Burger King, the Departments of Defense and State -- and the CIA itself!

Hurry! Take a sneak peek at American embassies, foreign consulates, the U.N., international intelligence headquarters, foundations, so-called charities, the media, the Congress, the Court and the White House! Find out who's struggling for power, who's got the power and whether they're using that power for you -- or against you!

Sssssh! Find out about secret research and new kinds of warfare that may make SALT obsolete before it's signed! About American bumbling that prevented peace in Nicaragua and how our grandchildren will still be paying for it! About new conflicts among the Saudis, Israelies, and the PLO. About the way they -- and the rest of the

-3-

world -- really view the American presence at Middle East peace talks.

Join INSIDER at secret sessions and conferences no outsider ever attended before! Listen in on conversations not meant for the general public! Read private memos and reports! Have amazingly frank and open discussions with lobbyists, registered representatives of foreign powers, American agents, double agents and spies from practically everywhere!

Top-level intelligence agents
to take you behind the scenes

INSIDER does something no "news" magazine has ever done before. When it won't blow their cover, alarm their quarry or reveal classified information, we introduce you to our agents!

In the stranger-than-fiction pages of INSIDER, some of the most successful agents of the twentieth century tell you why they spy for a living. Who recruited them and how. Where they were trained and how. How they deliver the goods. How they are paid. What happens to them when they fail.

They tell you what it's really like to work for the CIA, the KGB, the SDECE, M16, Mosad and Iran's Saavak. What it's like to be a mercenary, a terrorist, a double agent, a defector, an industrial spy. How they solved their toughest cases. How they escaped with their lives.

Top-level techniques for you to use

Furthermore, they tell you exactly how they operate. How they gather and evaluate information far in advance of the media. How you can use the sophisticated tools, techniques and technology of modern espionage in your business life, your public life and even your personal life.

How to assess your friends and enemies...How photo intelligence and imagery analysis work...How to take advantage of the unspoken rules that operate groups... How to protect your privacy against covert signals, lie detection, pupilometry and voice stress analysis...Why some people need to be victimized...How to have an affair without getting caught.

INSIDER is always on your side! And -- I'm about to wave the

-4-

flag! -- we're always on America's side! Muckrakers, we are not. Serious and dedicated investigators, we are. We think our nation will be better off if people like you have access to more intelligent news than you're getting -- and we propose to use fast, accurate intelligence tactics to get it for you.

But every piece in INSIDER won't be feature length. In each issue, we'll bring you whole departments full of quick takes and late breakers!

Inside reports from retired and anonymous agents, defectors, unwilling and unwitting participants in events of the day! Inside information about manipulation in the media! Inside gossip from intelligence agencies and industrial espionage centers! Inside intelligence (and stupidity) about doings and dirty tricks in D.C.

We'll bring you reviews of books and films! Letters from readers who are both spies and spied-upons! Cryptograms, puzzles, ways to test your reasoning power against famous secret agents, lessons in becoming a private agent, yourself!

A Charter Subscription Invitation

We'd like to bring you all this news, information and entertainment from the very first issue and we hope you'll join us as a Charter Subscriber, entitled to these valuable benefits:

DEAR READER,

THOUGHT YOU'D LIKE TO SEE
THIS MEMO FROM DR. RAY CLINE,
FORMER DEPUTY DIRECTOR
OF THE CIA.

ASS

RAY S. CLINE

AJ

Just a brief update on the article on Super Powers Of The 90's as you requested.

The basic data is gathered and assessment of trends in process. Especially of interest are the alternative lines of development in the Persian Gulf oil politics. I'm pleased with the cooperation in many quarters -- old contacts come in handy.

The shape of the world is surely changing rapidly and radically.

Again I want to convey my enthusiasm for this endeavor. I know of no better approach to decision making than the intelligence method -- its power is astonishing.
